

FRAMEWORK BUILDER^{LAB}

THE STEP-BY-STEP TRAINING FOR COACHES WHO WANT TO BUILD A UNIQUE FRAMEWORK THAT MAKES THEM STAND OUT IN A CROWDED MARKET AND ATTRACTS CLIENTS WITH EASE - EVEN IF YOU ARE JUST STARTING OUT.

Every super-successful coach has a unique framework that helps them stand out above the others in their industry. *It's their "sweet sauce" to success.*

The struggle is that so many coaches waste time on client attraction strategies that don't really work like endless hours of reels, or posting on Instagram when instead they could develop their unique framework for client success and stand out immediately.

In fact, The most effective way to stand out in a crowded coaching market is by creating a step-by-step process that you take each client through to produce consistent results...*time after time after time.*

ENTER IN: *Your Signature Coaching Framework*

CAUSE-AIN'T NOBODY GONNA DO IT LIKE YOU DO IT!

A signature methodology or framework is a step-by-step process unique to your coaching business that you take each client through to produce consistent results...time after time after time.

Your method is what you teach and how to teach it. It's what allows you to immediately stand out and distinguish yourself from every other coach in the industry.

And I will be teaching you how to create your framework LIVE inside the **Framework Builder Lab™** {even if you don't think you have a framework yet.}

Once you complete the **Framework Builder Lab™** here is what you will have:

- 💡 A complete step by step process to guide your coaching.
- 💡 Clarity on exactly what results your clients will walk away from your coaching with.
- 💡 A list of deliverable resources you can create to overdeliver every single time with your clients.
- 💡 The exact container your framework is best suited for.
- 💡 Confidence about who you are what you offer as a coach.

This Framework Lab is for

Framework Builder Lab™ is for coaches, practitioners, therapists, content experts, or course creators who:

- Want to create a step-by-step process to guide their clients through to guarantee consistent results.
- Are overwhelmed creating that process and don't know where to start.
- Are nervous to start coaching their first client because they have no idea what they would even teach first and then next.
- Think they don't even have a process yet because they haven't served enough clients.

It's not for

Framework Builder Lab™ is NOT for coaches, practitioners, therapists, content experts, or course creators who:

- Want someone to develop their signature framework for them.
- Don't care about their clients' results.
- Are planning to repeat someone else's process instead of be original and authentic.

BEST DAMN COACH.

Here is what is included inside
